E/CONF.39/D/145
SUMMARY
12 Nov.1962
ENGLISH
ORIGINAL : FRENCH

UNITED NATIONS CONFERENCE
ON THE APPLICATION OF SCIENCE AND TECHNOLOGY
FOR THE BENEFIT OF THE LESS DEVELOPED AREAS

## SUMMARY

Agenda Item : D.14

Italy

# SYSTEMS AND METHODS OF PREFABRICATION APPLIED INDUSTRIALLY IN ITALY, AND THE POSSIBILITY OF DEVELOPMENT IN THE INTERESTS OF THOSE COUNTRIES WHICH HAVE A LITTLE DEVELOPED ECONOMY

By Ezio ERCOLI,
Technical Secretary
to the Italian Prefabrication
Association

Papers have been contributed to the United Nations Conference on the Application of Science and Technology for the Benefit of the Less Developed Areas as working papers for that Conference. They are published as presented by the contributors, and the contents and the views expressed are those of the contributors. (See notes overleaf.)

## NOTES

1. Papers selected for inclusion in General Sessions will be available at the Conference in the following official languages of the United Nations: English, French, Russian and Spanish.

2. Papers selected for inclusion in Specialized Sessions will be available at the Conference in only one of the above official languages.

3. Summaries of all papers, as submitted by contributors, will be available at the Conference in the following official languages of the United Nations: English, French, Russian and Spanish.

4. Papers and summaries will not be available for general distribution in advance of the Conference. They will be published in advance in limited quantities only for the use of delegations of participating governments and of other authorized participants. Post-Conference publication and general distribution of the Conference Proceedings will follow United Nations practices as laid down by the United Nations Publications Board.

# SYSTEMS AND METHODS OF PREFABRICATION APPLIED INDUSTRIALLY IN ITALY, AND THE POSSIBILTY OF DEVELOPMENT IN THE INTERESTS OF THOSE COUNTRIES WHICH HAVE A LITTLE DEVELOPPED ECONOMY.

By
EZIO ERCOLI, TECHNICAL SECRETARY
TO THE ITALIAN PREFABRICATION
ASSOCIATION.

SUMMARY

INTRODUCTORY PART

The possibilities of prefabrication systems in the interest of municipal development in the less developped areas, particularly in the Middle-East and African regions, are briefly examined.

DESCRIPTIVE PART

The different Italian systems which may be utilized in this sector are here described within the framework of the industrial structure of the sector in Italy, and of its actual and future productive possibilities and capacities.

A detailed description is given of the types of unit made in Italy, together with the respective technical characteristics.
